Date: 04.03.2020

Circular No.Acad-16/2020

All Heads of Schools affiliated to CBSE

Subject: Creating Awareness about preventive interventions for reducing transmission of Novel Coronavirus disease

Ref.:

1. D.O.No. 14-3/2020-Sch.3 dated 04th March, 2020 of Secretary, Departments of Higher Education / School Education & Literacy, MHRD, Govt. of India
2. D.O.No.Secy(HFW)/IMP/Cornavirus/2020 dated: 05th February, 2020 of Secretary, Department of Health and Family Welfare, Ministry of Health and Family Welfare, Govt. of India
3. D.O.No. 14-6/2020-IS-10 dated 21st February, 2020 of Joint Secretary, Department of School Education and Literacy, MHRD, Govt. of India

Dear Principal,

You may be aware of the Novel Coronavirus reported from China and 24 other countries. Though much is not known about the disease dynamics, it is evident that there is human to human transmission. As of now, there is no drug or vaccine available to manage this disease. Hence preventive measures become crucial to stop spread of this disease.

Creating awareness among school children about preventive interventions such as frequent hand wash, respiratory etiquettes (using handkerchief over mouth while coughing/ sneezing, use of tissue paper or using the sleeve of shirt covering upper arm, staying away from school when sick, avoiding public gathering etc) will help in preventing/ reducing transmission of not only this disease, but also large number of other communicable diseases, notably flu like illness. Further, such informed children can be agents of change for their family, community and beyond.

In view of the above, you are requested to take initiatives to teach children these simple public health measures that will go a long way in preventing spread of Novel Coronavirus disease. An information pamphlet is enclosed which could come handy for the teachers to sensitize children.

(Dr. Joseph Emmanuel)
Director (Academics)

Encl: As stated above

Copy to the respective Heads of Directorates, Organizations and Institutions as indicated below with a request to disseminate the information to all the schools under their jurisdiction:

1. The Commissioner, Kendriya Vidyalaya Sangathan, 18-Institutional Area, Shaheed Jeet Singh Marg, New Delhi-16

Ministry of Health & Family Welfare
Government of India

Reduce the risk of Coronavirus infection Follow these important precautions

Wash hands with soap and water frequently

When coughing and sneezing, cover mouth and nose with handkerchief, tissue or elbow

Avoid close contact with anyone with cold, cough or flu like symptoms

If you have cough, fever or difficulty in breathing, contact a doctor immediately

Stay protected!

Stay safe from Coronavirus!

If you have returned from Wuhan/China after January 23, 2020, or have been in contact with any person affected by coronavirus, then limit your contact with others and use a separate room for sleeping.

If you have returned from China after February 15, 2020, or have been in contact with any person affected by coronavirus, then limit your contact with others and use a separate room for sleeping.

If you develop a cough and difficulty in breathing within 14 days of return from China, immediately call the Ministry of Health and Family Welfare Helpline.

कोरोना वायरस संक्रमण का खतरा घटाएं ये सरल उपाय अपनाएं

नियमित रूप से साबुन
और पानी से हाथ धोएं

खाँसते या छींकते समय नाक
और मुँह टिशू या कोहनी से ढकें

जिस व्यक्ति में खाँसी, जुकाम या
बुखार के लक्षण हों उससे दूरी बनाएं

अगर खाँसी, बुखार या साँस
लेने में परेशानी हो तो तुरंत
डॉक्टर से संपर्क करें

**सुरक्षित
रहें!**

**कोरोना वायरस
से बचे रहें!**

यदि आप पिछले 15 दिनों में
कोरोना वायरस संक्रमण का
संकेत (जैसे खाँसी, बुखार, साँस
लेने में परेशानी) महसूस करें
तो तुरंत अपने डॉक्टर से संपर्क करें
और अपने घर में बसकर रहें।
कोरोना वायरस का संक्रमण
आमतौर पर 2-14 दिनों के बीच शुरू होता है।

यदि आप पिछले 14 दिनों में
कोरोना वायरस संक्रमण का
संकेत (जैसे खाँसी, बुखार, साँस
लेने में परेशानी) महसूस करें
तो तुरंत अपने डॉक्टर से संपर्क करें
और अपने घर में बसकर रहें।
