2. $187 = 1 \text{ Hundred} + 8 \text{ Tens} + 7 \text{ Ones} = 100 + 80 + 7$

IV. Count the following in tens:

A visual representation of the addition 20 + 10 + 3 = 23 using stars. On the left, there are two boxes, each containing 10 stars arranged in two rows of five. Below the first box is the number '10'. In the middle, there is a plus sign. To the right of the plus sign is another box containing 10 stars arranged in two rows of five. Below this box is the number '10'. To the right of this box is another plus sign. To the right of the second plus sign are three stars arranged vertically. Below these stars is the number '3'. To the right of the '3' is an equals sign, followed by the number '23'.

CH: 10 – Add our points

I. Notes:

- When we put things together we ‘add’ them
- The answer is called the ‘sum’

$$\begin{array}{r} 5 \\ + 2 \\ \hline \end{array}$$

Sum \longrightarrow 7

- When 1 is added to a number we get the next number as the answer.
Example: $20 + 1 = 21$
 $1 + 4 = 5$
- When zero is added to a number we get the same number as the answer.
Example : $23 + 0 = 23$
 $0 + 9 = 9$
